MEMORANDUM

SUBJECT: Request for concurrence on Proposed Nationally Significant Removal at the Davidson Asbestos Site, Davidson, Mecklenburg County, North Carolina

FROM: Franklin E. Hill, Director
Superfund Division, Region 4

TO: Reggie Cheatham, Director
Office of Emergency Management

The purpose of this memorandum is to request and document your concurrence on the proposed removal action at the Davidson Asbestos Site (site), Davidson, Mecklenburg County, North Carolina. The contaminant of concern at the site is asbestos. The site is not on the National Priorities List (NPL). Re-delegation of Authority R-14-2 gives you the authority to concur on nationally significant or precedent-setting removals at non-NPL sites.

The On-Scene Coordinator (OSC) has discussed this proposed removal with staff of the Office of Emergency Management's Preparedness and Response Operations Division (PROD). PROD has advised the OSC that this removal is considered nationally significant or precedent-setting because the primary contaminant is asbestos (Superfund Removal Guidance for Preparing Action Memoranda, September 2009).

The Action Memorandum is attached for your review. My approval awaits your concurrence.

Concur:

Reggie Cheatham, Director
Office of Emergency Management

13 FEB 2017
Date

According to the re-delegation, authority to non-concur remains with Assistant Administrator. If you choose not to concur on this action, please forward this memorandum to the Assistant Administrator.

Non-Concur:

Barry Breen, Acting Assistant Administrator
Office of Land and Emergency Management
